1. Roll and glue part 1 into a cone.
2. Roll and glue part 2 into a shroud; glue part 1 to part 2.
3. Roll and glue part 3 into a shroud; glue part 2 to part 3.
4. Roll and glue part 4 into a cylinder.
5. Score the tabs of part 5 and fold; glue part 5 into the top of part 4; glue part 3 to the top of part 4.
6. Roll and glue part 6 into a shroud; glue part 6 to the bottom of part 4.
7. Roll and glue part 7 into a shroud; glue part 7 to part 6.
8. Roll and glue part 8 into a shroud; glue part 8 to part 7.
9. Roll and glue part 9 into a cylinder. The end with the white lines on it is the bottom.
10. Glue part 10 inside the top of part 9.
11. Roll and glue part 11 into a cone with the colored side inside; glue part 11 inside the bottom of part 9.
12. Score each part 12 along the faint green line. Fold each part 12 double and glue together. After glue has set, trim off the excess card. Glue each part 12 to part 9 on one of the white lines.
13. Put a drop of glue on part 10; insert part 9 through part 8 until part 10 touches part 5; allow glue to dry before handling model.
